C E I L I N G S O L U T I O N

Professional Commercial Ceilings Service Since 1975

Architect's
Choice

USA PRODUCT

yellowing odor
stain dirt
less acoustical

dust aging
uneven-color
flame and smoke retardation

LOOK UP[®]

Ageing & Malfunction

...as acoustical tiled ceilings aged, they lose many of their original properties, including the ability to absorb sound (acoustical rating) and flame & smoke retardation. In addition, they darken and often take on a checkerboard look.

USA PRODUCT

bacteria toxin
mold **virus**
microorganism
pollutant yeast

LOOK UP[®]

Sick Building Syndrome

...these potential disease causing irritants circulate throughout the facility by the air conditioning systems and spread very quickly by improper cleaning method.

USA PRODUCT

Cooustic-GLO

Our focus is the cleaning, sanitizing and restoration of all types of ceilings in existence

Acoustic, Vinyl, Metal, Fiberglass tiles, Popcorn, and Vermiculite ceilings.
Porous and Non-porous, Rough Textured, Glittered ceilings.

Our bio-degradable and non-toxic patented product is applied to the ceiling using an airless spray equipment

Through the unique water based combination of surfactants and oxidizers, the pollutants and stains are removed in the form of an invisible, odorless vapor.

Also, virus, bacteria, microorganisms, yeasts and molds are killed.

Cooustic-Glo effectively eliminate one of the major contributors to the poor health of your building, Sick Building Syndrome (SBS).

Our patented coating will transform your ceiling system into a much brighter one, even brighter than a brand new one

Outlasts the Life of a New Tile as far as retention of brightness or color and resistance to dirt, dust, and the yellowing caused by UV light exposure.

The acoustical performance can be restored and a Class-A fire retardant surface finishing which reduces the flame spread from 25 to 5 will be resulted.

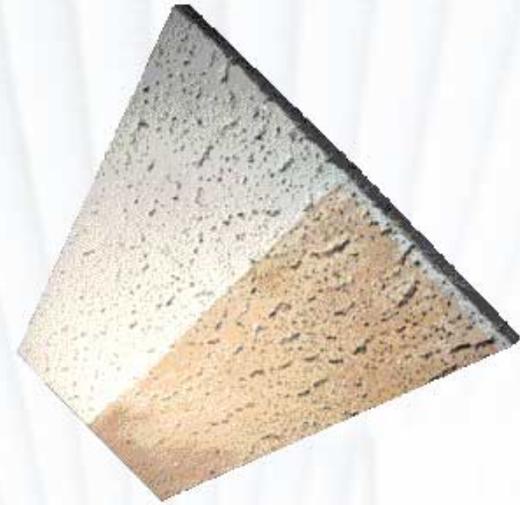

USA PRODUCT

Cooustic-GLO

We specialize in...

- **CLEANING** - Of acoustical & vinyl ceiling with non toxic, biodegradable patented products
- **SANITIZING** - Removal of micro-organisms, bacteria, yeasts & moulds
- **DEODORIZING** - Leaves ceilings & environment with a pleasant, non offensive odor
- **RE-SURFACING** - Application of an acoustical & fire retardant coating - gives ceilings a new appearance (does not bond tiles to T-bars / does not block fissures & pores of acoustical tiles)
- **COLOUR CHANGES** - Unique patented acoustical resurfacing with the option of providing you with your own desired colour (ideal for homes, restaurants, clubs & theaters)
- **NEW CEILING INSTALLATION** - We install new suspended ceilings - acoustical & vinyl (for home & commercial sector)
- **COUSTIC GRID** - A recapping system for grid bars

Cooustic-GLO

Advantages...

- **Extremely cost effective** - 3 times cheaper than replacement
- **Improve appearance** - Provide uniformity to entire ceiling surface
- **Eliminate unsightly water stains and checkerboard look**
- **Ceiling is cleaned, sanitized and deodorized**
- **Virus, bacteria, microorganisms, yeasts and molds are killed**
- **Provides a Class A fire retardant surface finish and retention of acoustic properties**
- **Extend the life span of any ceiling** - Dramatically reduces solid waste disposal into landfills
- **Increase light reflectance by 50%** - Decreases lighting energy consumption
- **Coatings are biodegradable and non-toxic** - No fumes odors from the process itself
- **Add no weight to ceiling support** - May be done repeatedly for maintenance
- **Is non-bridging to grid work** - It is not paint
- **No downtime for facility during service** - Ready for occupation in 4 hrs of application
- **Can be used to change color of ceiling if desired**

Cooustic-GLO

Facts...

Microorganism Challenge Test by Geneva Laboratories, Inc. Ref. #3-30-1 and #3-30-2.

This test measured the sanitizing abilities to eliminate four types of microflora (yeasts and molds). Products were rated as effective anti-fungal agents.

Air Sampling Analysis by Twin City Testing. Lab NO. 2-4810 and 4-4952.

Active ingredient levels were measured in the air after servicing. In a 1,000 square foot, non vented room, levels were within the OSHA standard for occupancy within one hour.

Surface Burning Characteristics by the United States Testing Company, NO. 185384-1.

Fire and smoke retardation ratings of acoustical tiles were measured after testing with Cooustic-Glo product. Results show that tiles retain class A ratings. The product has no adverse effect on flammability levels. Test procedure and apparatus have been accredited (Lab. No. 106) under the National Institute of Standards and Technology/NVLAP Program.

Light Reflectance Measurements by Twin City Testing, Lab. No. 7-10585.

This test measured the increase in light reflectance after a dirty tile has been serviced. On a lightness scale of zero for black and 100 for pure white, dirty surface rated 50.2 and the clean surface rated 75.8.

Government Opinions

The United States Department of Agriculture has issued a letter of opinion in which state our products are chemically acceptable for use in official establishments operating under the federal meat and poultry products inspection program.

The California State Fire Marshal has issued registration #4480-1245:100 certifying that our product is a qualified flame retardant coating carrying a class A fire rating.

Green Seal Standard GS-11 requirements

The Cooustic Glo's Coat and Cleaning products have an extremely low VOC level that is well within the range that satisfies Green Seal Standard GS-11 requirements.

ISO 9001: 2008

Is a water based acoustical resurfacing product.

Is non-bridging to gridwork.

Service is done with ceiling in place (No removals)

Deodorized and clean healthy ceiling

Adds no weight to ceiling

Extend the service - life of any ceiling.

May be done repeatedly

Has no Odor

USA PRODUCT

Chandeliers Cleaning...

Finally a safe way to clean and restore the fine crystal surfaces of even the most intricately designed chandeliers.

Over time, dust and other particles can build up and cause the shine on your intricate and fragile crystals to dull. We take pride in carefully cleaning your chandelier and restoring it to its original sparkly condition.

Coustic Glo offers a complete on-site chandelier cleaning service. Using non-damaging cleaning agents, we can bring the shine back to that dusty work of art.

Our cleaning services include...

- **Crystal Chandeliers**
- **Hanging lanterns**
- **Glass chandeliers**
- **Hanging light fixtures**
- **Metal chandeliers**
- **Ceiling Fixtures**
- **Porcelain chandeliers**
- **Wall sconces**
- **Pendant lights**
- **Wall fixtures**
